### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chris Eusebi on 3/13/2006.

The application has been amended as follows:

**Claim 1 (Currently Amended):** The word "force" in line 9 has been deleted and rewritten as --form--.

**Claims 16-22** have been cancelled.

2. The following is an examiner's statement of reasons for allowance: While the prior art, as seen in Richardson, Jr. (US Patent No. 5,051,079) teaches the art of using powdered metal to create scrolls, and the sintering of a green involute scroll form to a green base plate form, it fails to teach the coupling of a green hub form to a green involute scroll form and sintering the two, to create an involute scroll component, in combination with all the other claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
